- **CompTIA A+**

PERSONAL PROJECTS - https://github.com/DeevoL

Microblog
Flask-based "microblog" currently hosted on Heroku. Includes user logins, central post feed, and search functionality. Has also been "Dockerized" and hosted on EC2 instance.

Tonks
Command line based multiplayer card game written in Python. Involves complex game flow, tracking of hand values, recognition of valid "combos", and ability to draw from multiple card piles.

EDUCATION

University of California Riverside   **December, 2017**
BS, Biology   *Riverside, CA*
